Dear Cedric,

Receipt of your Christmas card today, forwarded from our previous town, makes me wonder if I ever sent you a copy of OSWALD IN NEW ORLEANS: CASE FOR CONSPIRACY WITH THE CIA. I had finished this in early April, when it was contracted by Dell. The post office accommodatingly lost it long enough for Dell to reconsider and I finally gave it to Canyon, which did it on the cheap, editing with shears, leaving out table of contents, index, etc. As soon as it appeared I went down to New Orleans to help Garrison again, then off for TV and radio appearances on the west coast, and just do not recall if I sent it. If I didn't, please let me know and I will. I have a more than 300-page appendix of once-secret documents that may now never be published.

On second thought, I'll send it separately. If I sent one, so, you have two.

My fifth part of this study, POST MORTEM: SUPPRESSED KENNEDY AUTOPSY, perhaps the most shocking, has been done more than five months. I just cannot risk the additional debt to print it. It is a waste of time for me to approach publishers. The lack of interest abroad is not at all helpful or encouraging. I have sent Volk and Velt everything as it appears, and I do get polite acknowledgements. They even return the books. Dilia in Czechoslovakia did try and failed to interest any of their houses.

Three trips to New Orleans to help Garrison and the efforts to promote sales that cannot be sought by advertising, for which there is no money, and living, has temporarily halted what I call "constructive" work. When I return from a trip that begins in a week I hope to get back on the sixth, which is entirely researched and largely written, and the seventh, the non-organic sequel TIGER TO RIDE that I once mentioned to you. But it is very lonely work. None of the liberal or left press have even mentioned my books subsequent to the first (which got its only good mention in such journals-almost its only one-from you).

Meanwhile, the government is hurting. They are leaking stuff on Garrison (that has backfired) and on me, with broad hints of Senate internal Security Committee and HUAC investigations in progress. They will do nothing but leak, for they will not dare my being a witness. HUAC tried it once and haven't printed that testimony in 29 years! And I got an agent of theirs convicted, which everyone has forgotten-except them. Thus far none of the "respectable" columnists and papers have touched it. When I think of how Wiggins, editor of the Post must choke over the letters I write him to establish a record, they'll probably do it soon.

Thanks for remembering the card. Have a good year. Miss keeping up with you in the Guardian.

Sincerely,
